

HAND 2 HAND 'PAMPERS & MILK FORMULA' APPEAL AUGUST 2017

We had such a tremendous outpouring of donations earlier in the year for pampers/nappies and milk formula that it has sustained us for 7 months. But now when we go to the store room looking for pampers or milk formula it's a bit like mother Hubbard's bare cupboards.

We use about 390 new born pampers every month. In other sizes small, medium, large xl, xxl and xxxl we use about 35 per week or 140 a month.

Our stocks at the moment are 824 new born pampers we require another 1950 to get us to the end of the year. Therefore our short fall is 1126 new born pampers. In small size we have 444 but we need 700 to get to the end of the year a shortfall of 256. Medium we have 666 a shortfall of 34. Large we have 188 a shortfall of 512. XL we have 0 a shortfall of 700. XXL we have 10 a short fall of 690. XXXL we have 168 a short fall of 532.

For milk formula we require 12 boxes of formula to fill our quota until the end of the year.

The pampers and milk formula are used for children in the hospitals and for disabled children in the slums. Both of these items make a tremendous difference to those who receive them and are received with lots of love and gratitude.

We have been blown away with the generosity of our supporters over the first 7 months of our appeals both from people in Pattaya, other parts of Thailand and many other countries around the world.

As always we will gladly receive donations at the pre-school either the required items or cash which will be turned into goods. Alternatively you may donate through our website by clicking on this link

<http://www.handtohandpattaya.com/get-involved/donate/>

and donate through PayPal

Once again we cannot thank you enough for your ongoing support. So let's get mother Hubbard out of our cupboards and have a storming August.

Thank you,
Hand to Hand Foundation

Have a wonderful day,
